I wanted to write a letter of both thank you and reference for the wonderful job that you did at our wedding in Calgary on July 19, 2008.

When planning our wedding, we were often told that there are only two things a wedding guest remembers – the food and the DJ. Thankfully we had you! You were very personable, polite and immensely professional. You instantly put Casey and I at ease, right away we could tell that not only did you take your job seriously – but that you were very good at it.

We really appreciate your ability to read the crowd and the dance floor was always full - but not just with the same group. You selected songs that flowed together nicely and sets that brought out different people. I liked how you knew exactly when to slow it down and when to kick it up! The background music during dinner was perfect; it added to the event and didn't get in the way of conversation. Thank you for taking over the MC duties to help us with the bouquet and garter toss.

There are a lot of things to worry about at a wedding and I can honestly say that I didn't worry about you at all. It was such a relief to have a DJ that was not only very capable – but one that I could trust to look after the music for us.

You came in, set-up your equipment without even a peep (the lights were great by the way!) and took it all down with no hassle. The guests had a great time and certainly didn't want to stop dancing! Your creativity with spinning songs together is truly a talent.

Casey and I would recommend you in a heartbeat – for weddings and corporate events! Please don't hesitate to contact us if we can be of assistance.

Thank you,
Jennifer Bray
