8 Things To Look For When Hiring A DJ

1. Personalized Service - You want to feel a personal connection and have your DJ's personality match you and your theme. You don't want to be just another # for that DJ Company, you want to feel important and treated like a Bride & Groom!

2. Experienced - You want to make sure that you are hiring a DJ that has experience with weddings and anything special about your wedding day. Ask for testimonials and research the DJ Company before signing a contract.

3. Professional - Meet with the DJ or the Company in person, are they professional? Do they have a professional website? You want a DJ who is dressed properly and has a professional attitude for their job.

4. Punctual - You want to ensure that your DJ will arrive on time and be set up prior to guests arrival. You wouldn't want to have your DJ loading in and setting up equipment during dinner or speeches.

5. Pricing - Shop around before signing a contract right away. Make sure that you are getting a service that is worth what you are paying for. Be weary of a deal that is 'Too Good To Be True' as well. Check out what the average prices are in your area and choose a DJ that you are most comfortable with within your budget.

6. Available - It's always best to give the DJ your date, venue, city and number of guest right away so they can tell you if they are available or not for your wedding.

7. Music Library - Ask about the DJ's music library, do they carry a wide range of music genres to every gig and is it up to date with the current hits. You will also want to check to make sure that if they are using a 'digital library' that they getting high quality music from a legal source. All professional DJ's should have their music licensed by AVLA.

8. Recommended - Always check for testimonial and referrals. If wedding couples, venues and other wedding vendors are highly recommending a service then there is a good chance that they have a good track record.

TESTIMONIALS - What People Have to Say...

"Thanks for all your help entertaining our guests on Saturday! Everyone loved the mix of music you played and they all had a great time!" - **Corrie Dunn, October 2010**

"Thanks for DJ'ing my wedding!! You did a great job, and you were very professional! You made me not have to worry about my special day because I knew you would be there every step of the way :-)" - **Cathy Hoshino, September 2010**

"Hi Terry, Sarah and I just got back from our honeymoon and I just wanted to say thank you very much for the great work at our wedding on May 29th. Everyone had a great time and you were a big part of that." - **Kyle Coghill, May 2010**

"When planning our wedding, we were often told that there are only two things a wedding guest remembers - the food and the DJ. Thankfully we had you! You were very personable, polite and immensely professional. You instantly put Casey and I at ease... We really appreciate your ability to read the crowd and the dance floor was always full - but not just with the same group. You selected songs that flowed together nicely and sets that brought out different people. I like how you knew exactly when to slow it down and when to kick it up!... The guest had a great time and certainly didn't want to stop dancing! Your creativity with spinning songs together is truly a talent. Casey and I would recommend you in a heartbeat - for weddings and corporate events!" - **Jennifer Bray, July 2008**

"Laura and I had an amazing night on Saturday. You did an amazing job, even picked up on my best man's love of 'Snoop Dog' without being asked, everyone was on the dance floor until the very end, which was the goal." - **Patrick, August 2009**

"I cannot thank you enough for the incredible dance you put on for our school's Semi Formal Dance. The usual complaint we get after dances is one type of music was overplayed / underplayed or the music choice in general was terrible and we didn't hear one complaint about the music choice afterwards. You did a really fantastic job, by far the best from among the 15 DJ's we've hired over the past three years, including Danny D from Z 103.5 incorporating dance, pop, rap, rock, old songs and the latest hits perfectly. Everyone was on their feet the whole time." - **High School Formal, Feb. 2008**
